

**WIA – The Project**  
**Shannon Williams**

I am very disappointed in my project. I am having such a hard time with this class. I can read and explain everything on the page, I just don't know how to start it and connect it all together.

My site is about dog breeds and their popularity. I love animals but I especially love dogs. I have four of my own. I created an image gallery with lightbox.js. It is functional but not completely. The pictures are of my own dogs, so I do not need permissions. I followed the videos for an animated bar chart so I could show the top breeds of 2015. Didn't work. I was working on a map to show where each breed comes from. Didn't work.
